

Key Lime Pie

2 Cans Condensed Milk

3 Limes

1 Graham Cracker Pie Shell

With a zester or micro-plane, remove the zest from the lime. Extract the juice from 2 ½ limes and reserved the other half incase more juice is to be added.

Combine the condensed milk, lime juice and zest into a bowl and carefully whisk until mixed. Taste the mix and add the other half of the lime juice if needed.

Pour the mix into the pie shell and refrigerate close to 4 hours or better, overnight.

Slice the pie and garnish with lime slices and zest and a little whipped cream.
